NO. OF ENCLS.
 (LISTED BELOW)

DATE OF INFO

SUPPLEMENT TO
 REPORT NO.

25X1X

DATE DISTR. 12 February 1948

1. President Skrzypczynski of the Central Administration for Industry was requested by the Economic Council in Karlshorst to procure the present production figures of all industrial plants located in the American, British, and French sectors of Berlin.
2. Since the Central Administration is not in a position to secure the desired information directly, employees of the Magistrat have been placed in the different borough agencies. These men, chosen for their reliability and trustworthiness, are to find out and report about the following:

Number of workers employed in the different industrial plants;
 Description and number of machines;
 Political views of leading personalities and foremen;
 Financial status of the plants in question;
 Number of buildings and use made of them.

In addition, any observations which point to the possibility that the plants might be removed to the western zones must be reported immediately to the Department of Reparations in Karlshorst.

3. The Russian authorities want this information, it is alleged, in anticipation of the possibility of an extension of the Russian sector, in which case the sequestration of these plants might come into consideration.

This document is hereby regraded to
 CONFIDENTIAL in accordance with the
 letter of 15 October 1943 from the
 Director of Central Intelligence to the
 Archivist of the United States.
